### Minor Changes:

- **Blogger XML:** fix the post rendererr (blog post view) to handle about if the localStorage is disabled and render the default layout.
- **Sidebar:** Adjusted the position of the message, hiding the floating icon at the beginning to give more space in the screen.

The image shows a mockup of a website header. The background is a light gray with a large, bold, black title "Nieuwe Smart-Sites & Blogs". Below the title is a blue horizontal line. A white message box with a close button (X) in the top right corner is overlaid on the bottom left. The message box contains the text: "Wij zoeken een sales en online redacteur om ons team te versterken! [Check hier de vacatures.](#)". The background image also shows a dark navigation bar with icons for Facebook, Instagram, and Google, and a footer with links: "VERHUUR", "TIPS & ADVIES", "FAQ", and "LO".

### Mockups:
